10	Viet Nam	1,100.00

Global increase in a North American-style meat-based diet

This increases livestock, Chicken and pork demand and production

China 1.34B people

Economy Increased 500% in past decade

Since 2000- Dairy Herd incr. 300%, Pork Consumption incr. 26%

Since 1990- Chicken Demand incr. 400%

Corn Prod. incr. 38% Corn Demand incr. 50%

Biggest Hog Producer and Pork Consumer

Annual meat consumption:

16 kilograms per person 25 years ago

53 kilograms per person today

3 to 7 pounds of grain protein for one pound of meat protein.

Every six years equivalent of a North American population is added to the world

US Industry uses 700% more corn than 10 years ago

US Gov. mandate renewable fuel increase from 9B Gal. 2008 to 15B Gal. in 2015

Tyson Foods Inc., largest U.S. meat processor, said in September it paid about \$250 million more for grain and feed in its fiscal third quarter that ended July 2, 2011.

Corn meal and Soybean meal approx. 42% of Tyson cost to raise chickens

Higher oil prices have made agricultural production more expensive by raising the costs of:

fertilizer

irrigation

transportation of farm supplies and harvests

With a static farmland base, need to:

feed an increasing number of people

feed a growing livestock herd

meet increasing demand for ethanol

Droughts in major wheat-producing countries

Low grain reserves

Diversion to biofuels

US\$

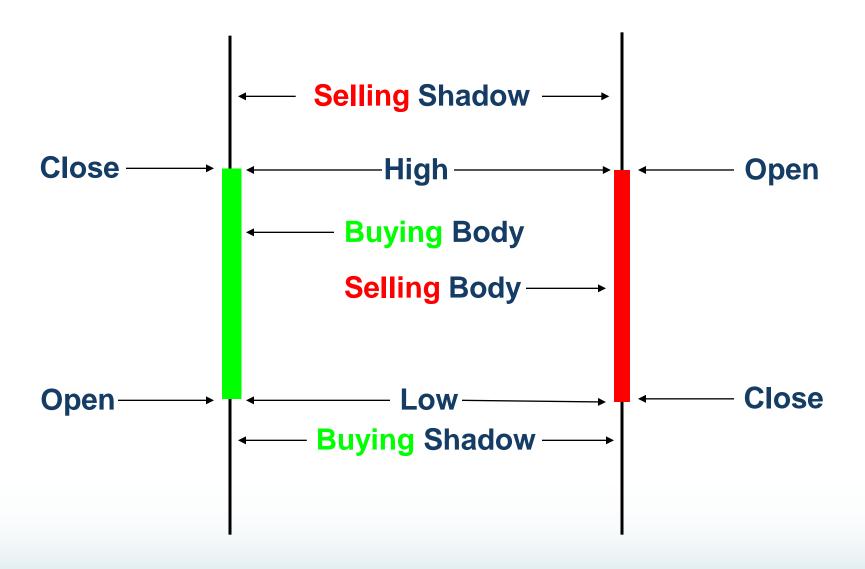

Acres Planted

Expected yields

Carryout

Expected Demand

Behavioral Japanese Candle Construction
